We Are Concept Plus

Concept Plus is a technology solutions provider that combines advanced technologies, methodologies, and processes to drive digital transformation across the federal IT market.

Our Value Proposition

Concept Plus is a trusted technology partner delivering innovative solutions and proven expertise to support federal agencies. With a strong focus on customer success, we provide specialized capabilities, proprietary tools, and extensive experience to help organizations achieve their mission objectives efficiently and effectively.

Extensive experience developing and implementing Oracle solutions for the Federal Government

A system integrator that brings credibility and is focused on customer success

A trusted and flexible Oracle services partner with proprietary tools for EBS migrations

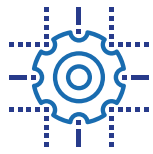

Award winning innovative solutions developed for DoD, Intel, Civilian and Health IT

Our Core Capabilities

We excel at helping customers migrate to the cloud. Once they're migrated, we help them modernize their applications to take advantage of the cloud.

Innovative & Award-Winning Oracle Solutions that integrate with other technologies.

Digital Modernization

Data Analytics & AI/ML

Cloud Solutions

OVERVIEW

Mission-Driven Software Development

- Delivering intuitive, efficient enterprise systems driving rapid development of customer applications
- Modernization and User Experience (UX)
- RPA
- Testing & Identity Management
- Accessibility including 508
- AI Digital Assistance

Mission-Focused Data Analytics

- Build analytical based systems with a focus on reporting and data accuracy. Empowering insightful, impactful decisions designed to enhance interoperability and promote evidence-based decision-making
- DW on Oracle EBS (BI Platform, Dashboards, AI/ML OAS/OAC)

Mission-Ready Cloud Transformation

- Cloud migration
- Application modernization/optimization
- IaaS – Lift & Shift, 1-day Landing Zone
- PaaS/SaaS – Enhance security, automate updates, and enable agencies to leverage AI, automation, and cloud-native services to improve efficiency and mission outcomes
- Managed Services

CAPABILITIES

- Agile SAFe/Scrum Development
- Software Engineering Process & Quality Automation
- GIS
- DevSecOps and CI/CD
- Training
- Automated Pipeline for EBS

- Integration & Interoperability Data Science
- Machine Learning & AI
- AI Agents
- BI & Data Visualization
- Data Lakes
- Big Data

- Hybrid & Multi-Cloud
- Cloud Migration as a Service
- Security as a Service – security readiness
 - Assessment
 - ATO
 - Continuous Monitoring
- Cost & Performance Optimization

ORACLE SOLUTIONS

- Low Code/No Code solutions
- Oracle APEX
- Oracle Integration Cloud
- EBS HRMS/Supply Chain/ ERP
- EPM
- Oracle Spatial and Graph
- Oracle ADB

- Oracle Analytics Cloud
- OBIEE
- Oracle Transactional Business Intelligence (OTBI)

- Oracle Fusion Cloud HCM/SCM/ERP
- Oracle Integration Cloud
- OCI Managed Services
- Custom Oracle Solutions that integrate with other technologies
- Audit 360™ Claims Mgmt Tracking [SaaS]
- EBS/OFC Solution Accelerator

We seamlessly integrate **Oracle** methodologies with **CP** methodologies such as the **CP Way** and our **Agile Execution Framework (AEF)**. Our expertise lies in crafting tailor-made Oracle solutions that seamlessly integrate with a wide range of technologies, ensuring a cohesive and efficient ecosystem

Best of Both Worlds

The agility, responsiveness, customer intimacy, and executive accessibility of a small business combined with the quality and infrastructure of a large business

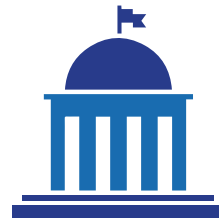

- Innovative and Award-Winning Technical Solutions
- Extensive Past Performance and Experience
- Technical specialist that can support the Oracle sales process and integrate into their team
- Focused on the Federal Government
- Mature processes, capabilities, qualifications, and best practices
- Access to specialized personnel when needed
- Engaged and available corporate management to validate services delivery, quality, and customer satisfaction
- Custom Oracle Solutions that integrate with other technologies
- Investment in corporate infrastructure for growth and scalable operations
- Agile, flexible capability to respond quickly to changing needs in dynamic and fluid environments

Concept Plus Corporate Profile

Founded 2008

In Business over
15 Years

Contract Vehicles

- GSA OASIS+ Unrestricted
 - Technical and Engineering Services and Support
 - Management and Advisory
- GSA STARS III
- CIOSP3/4 SB
- USAF SBEAS
- GSA MAS Schedule including HIT & CLOUD SINS
- Navy Seaport NXG
- Multiple SBIRs

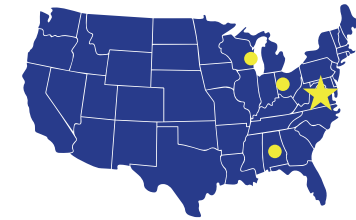

Facility Clearance

- Top Secret
- UEI GL3LT4MQCMK7
- CAGE Code 5AF73

Certifications

- 40+ Oracle Professionals
- 25+ Agile Professionals
- 30+ DevSecOps Professionals
- 20+ PMPs/ Scrum Masters
- 15+ Cloud Practitioners
 - OCI, AWS, Azure, and Google

Locations

- Fairfax, VA (HQ)
- Milwaukee, WI
- Dayton, OH
- Montgomery, AL

Business Process Excellence

CMMI DEV / 3

SBIRs

Small Business
Innovation Research

We develop SBIR-backed solutions that improve **health data acquisition, patient security, logistics automation, and mission modernization** for **military healthcare, emergency response, and digital transformation.**

Phased Structure of SBIRs

The SBIR program follows a structured, three-phase process:

- 1. Phase I**
Tests feasibility and potential; \$100K–\$275K over 6–12 months.
- 2. Phase II**
Expands R&D to build prototypes; \$750K–\$1.8M over 2 years.
- 3. Phase III**
Commercializes tech; agencies can sole-source without extra competition or J&A.

Benefits for Government Agencies

- **Pre-Competed Awards:** Gives agencies ready access to proven tech without extra procurement steps.
- **Non-Competitive Phase III:** Lets agencies sole-source Phase III work to speed up acquisition.
- **No Dollar Limits:** Phase III funding is flexible with no caps.
- **Size Standards Exemption:** Small businesses can grow while keeping SBIR eligibility.
- **Extended Data Rights:** Protects innovations for up to 20 years.
- **Continuity & Risk Reduction:** Keeps trusted contractors engaged, reducing risk.

Phase I - FA5606-23-C-0013

USAF Enterprise Automated Sourcing Fabric
Developed an AI-driven automated sourcing solution using advanced analytics to streamline USAF maintenance and logistics, fully compatible with DoD systems.

Phase I - W81XWH19C0127 DHA/JOMIS

Focused on hands-free patient data capture and secure transmission using advanced technologies and HL7-compatible messaging.

Phase II - W81XWH20C0103 DHA/JOMIS

Developed a Next Gen Mobile Medicine Platform with novel hardware, data structures, and security to enable secure, hands-free patient data capture and transmission.
