

NEW FOR 2025

DITAP Strategy for Executive Leaders

CivicActions

Government services that build public trust

OVERVIEW

DITAP Strategy for Executive Leaders

DITAP Strategy for Executive Leaders is a strategic leadership course designed for senior Federal executives who shape the future of digital services procurement. This course explores digital acquisition from the top down by bridging individual skills and organizational strengths to improve acquisition outcomes across agencies.

Participants learn to appreciate modern digital services, shape user-centered acquisition strategies, advocate for iterative delivery approaches, and model a culture of innovation that drives organizational improvement.

New for 2025

Created by experts in federal procurement and digital acquisition

Proven Foundation

Built on successes of 400+ recognized DITAP graduates

Strategic focus

Equips senior leaders with digital services acquisition expertise

Why this course matters

Strategic Alignment

Align digital acquisition with agency modernization and mission-critical goals. Connect procurement decisions to organizational strategy, ensuring every acquisition advances your digital transformation roadmap and delivers measurable impact.

Cultural Leadership

Lead organizational change and foster innovation within acquisition teams. Champion new approaches, build stakeholder buy-in, and create an environment where teams embrace modern digital practices and continuous improvement.

Enterprise Risk Management

Oversee multiple digital portfolios and mitigate strategic risks at scale. Identify cross-portfolio dependencies, balance innovation with compliance, and make informed decisions that protect agency interests while enabling agility.

Stakeholder Excellence

Master relationships with Chief Information Officers (CIOs), program executives, and external partners. Build communication and influencing skills to navigate competing priorities, align diverse stakeholders, and maintain productive partnerships that drive successful outcomes.

CUSTOM DELIVERY FOR YOUR TEAM

Flexible, Engaging Course Delivery

The course is comprised of **five interactive modules** totaling **16 training hours**, designed for maximum flexibility with seamless transitions between in-person and virtual formats.

While it can be delivered either way, in-person delivery is preferred.

Contact us about pricing and customization options.
