## Core Competencies

Our vendor-agnostic technology solutions help you maximize the value of your investments with transparency that empowers you to make real-time, data-driven business decisions. We take the time to listen, then we analyze your needs to design a solution that addresses them entirely with our core competencies:

- Data Protection
- Storage Systems Management
- IT Service Management Platform Implementation
- Software Development
- Cloud Migration
- Managed Services
- Infrastructure Services
- Technology Business Management/FinOps
- Artificial Intelligence/Machine Learning
- Advisory Services

## Differentiators

- **Data Dominance:** Let us optimize your data consumption. We transform data into decisions. We provide organizations with actionable insights and strategic solutions that drive measurable value.
- **Exemplary Agile.** A government client describes us as “exceptional in their practice of Agile software delivery” and the “poster child for Agile.” They also said, “Extremely professional, high-quality skill sets and agile processes. Highly sought after and recognized as a model for high-quality outcomes.”
- **Innovative Infrastructure Management.** We will analyze your network, storage, and compute environment and help you optimize it cost effectively.
- **Key Personnel for the Life of the Engagement.** Our senior personnel who design solutions are also skilled practitioners who implement them.
- **Vendor-Agnostic.** We are loyal to our clients, not any one brand. You’ll get the highest caliber solution at the lowest possible cost.
- **Your Trusted Partner.** We’re not just a service provider. We partner with you to deliver long-term value empowering you to lead your industry.

## Past Performance

**United States Patent and Trademark Office. Contract # 47QTCA18D00C8/1333BJ21F00281003. \$21.3 M. 2012-Present.** Modernized backup infrastructure resulting in *cost avoidance of \$3 M+*. Created and manage a configuration management database (CMDB) centralizing data, *saving \$2.24 M/year.* [Our entries in FPDS.gov](#)

**Department of Treasury, Office of Comptroller of the Currency. Contract # 47QTCA18D00C8 / 140D0424F1017 \$1.3 M. 2024-Present.** Tableau server administration and end user support to more than 5,000 users.

**Lansing Building Products. \$1,422,407. 2020-Present.** Cloud migration from data center to SaaS. *Deployed a hybrid extension to Azure for client’s CRM system.*
